### MERCY MARICOPA INTEGRATED CARE FOOTNOTES TO FINANCIAL STATEMENTS

As of: June 30, 2015

#### 1. ORGANIZATIONAL STRUCTURE

Organization operations - Effective January 22, 2013, Mercy Maricopa Integrated Care (MMIC) was incorporated in the State of Arizona. The initial members of MMIC are Southwest Catholic Health Network Corporation dba Mercy Care Plan (SCHN), Dignity Health (Dignity), Carondelet Health Network (Carondelet), and Maricopa County Special Health Care District (District), collectively the "members". The agreements also provide that SCHN will serve as the managing member of MMIC.

MMIC is located at 4350 E. Cotton Center Blvd, Phoenix AZ. MMIC was formed to provide physical and behavioral health care care services on an integrated basis to Medicaid eligible adults with serious mental illness, and to operate as the Regional Behavioral Health Authority (RBHA) to coordinate the delivery of health care services to eligible persons in Maricopa County, Arizona. MMIC was initially funded through a \$30 million capital contribution from SCHN and a \$5M capital contribution from District.

MMIC has entered into a management agreement with Aetna effective May 1, 2013, which automatically renews for successive one-year periods for five years. SCHN also contracts with Aetna separately to provide management services. Under the terms of MMIC's management agreement, MMIC pays a monthly fee to Aetna, as defined in the agreement, to cover the employee salary and benefit costs and general and administrative expenses incurred to operate the organization. Management fees of \$101,721,872 were paid to Aetna as of June 30, 2015. Of this \$101,721,872, \$130,722 is reported as sanctions for DBHS reporting purposes

MMIC also paid related third parties the following amounts for claims payments; \$7.6M Dignity Health, \$591k Carondelet and \$33M for Maricopa Integrated Health System.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation - The accompanying financial statements have been prepared in accordance with FASB ASC 954-205, Health Care Entities – Presentation of Financial Statements. MMIC's financial statements are also presented in accordance with FASB ASC 958-205, Not-for-Profit Entities -Presentation of Financial Statements. Under FASB ASC 958-205, MMIC is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. As of June 30, 2015, there were no temporarily restricted or permanently restricted net assets.

Cash and cash equivalents - Cash includes cash deposits in banks and cash equivalents. MMIC considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Amounts at each institution are insured in limited amounts by the Federal Deposit Insurance Corporation (FDIC).

Long Term Investments of \$520,244 are restricted U.S. government securities held by a bank required to remain in trust by the State of Arizona, Department of Insurance for the duration of the contract with ADHS. This is related only to the Medicare

MMIC has a contract with RGA Reinsurance Company for reinsurance of acute claims. Deductible level is \$500K and co-insurance is 10%. MMIC reviews claims payments to determine claims that are eligible for reinsurance. As of June 30, 2015 there was a Reinsurance Recovery of \$314,373 and receivable of \$445,836 recorded for Reinsurance.

Capitalized software costs - Research and development costs are charged to expense as incurred. However, the costs incurred for the development or purchases of computer software that relate to the implementation of the claims processing system are capitalized when technological feasibility has been established. These capitalized costs are subject to an ongoing assessment of recoverability based on anticipated useful lives and changes in hardware and software technologies. Costs that are capitalized include direct labor and related overhead.

Amortization of capitalized software development costs begins when the product is available for release and installation. Amortization is provided on a straight-line method over periods not exceeding five to seven years. Unamortized capitalized software development costs determined to be in excess of net realizable value of the product is expensed immediately. Capitalized software cost totaled \$3,845,414 at June 30, 2015. Amortization of capitalized software costs began April 1, 2014 when the product was available for release and is being amortized over five years.

Payable to Providers totaling \$5.8M is due to CVS Invoice accrual of \$2.8M, Housing accrual of \$.4M and Incentive accruals \$1.8M and Block/Misc Accruals \$.8M

Incurred But Not Reported Claims - Generally, IBNR is based on historical experience and reviewed monthly by the actuarial department. Due to no historical experience being available at this time the IBNR was based on Medical Loss

Received But Unpaid Claims - RBUC's are determined by totaling claims received after the final check run. This amount is included in the final IBNR balance. This also includes any Pharmacy Claims received and unpaid at month end.

IBNR Physical Health balance is \$8.254.559 and Behavioral Health is \$52.620.685 RBUC Physical Health balance is \$2,418,829 and Behavioral Health is \$2,679,947

Due to District - consists of \$9.7M payable to Maricopa County Special Health Care District. Under the terms of the membership agreement, any time after three years from the ADHS contract start date, provided that District has paid the promissory note in full, District may require that the Organization purchase the membership interest of District via a put option. The purchase price of District's membership interest shall consist of the initial funding, without interest, and any remaining accrued or deferred distributions (a 15% relative interest). Due to the put option associated with the initial funding, the \$10 million net of the change in net assets attributable to District for District's relative interest is classified as a non-current liability in the accompanying statement of financial position.

Revenue - ADHS/DBHS TXIX/TXXI Capitation revenue is accrued and recognized using the number of eligible clients provided by ADHS multiplied by the approved capitation rates currently being paid, unless the most recent proposed capitation rates were already approved and are awaiting payment. Non-capitated revenue is accrued using 1/12th of the ADHS/DBHS Allocation Schedule.

Service Expenses paid via block payment are allocated to the fund types (TXIX Child, TXIX SMI, etc.) based on the year-to-date block payments. Within a fund type, the allocation by service line is typically based on the year-to-date encountered claims data. However due to the lack of encounter data at this time, the expenses were allocated on the previous RBHA's historical encounter data. FFS expenses include both paid claims and estimated IBNR. Due to lack of historical FFS expense data, for the month of June the FFS expenses were estimated based on Medical Loss Ratio analysis. Pharmacy expenses are booked to the fund types based on actual pharmacy expenses paid year-to- date. Non-encounterable services (SABG Prevention, SABG HIV, Bridge Subsidy Housing grant) are directly allocated based on actual and estimated expenses incurred year to date.

Administrative Costs defined by ADHS/DBHS include, but are not limited to management service agreement expenses, professional and outside services, insurance, bank fees, etc. These costs are indirect cost as they are incurred for the common benefit of multiple direct program service activities and are grouped according to the nature of the cost. These costs are allocated in accordance with one of the methodologies described below.

Administrative Cost Allocation Methodologies -

A.) Management Service Agreement Cost - Payment is defined by the management service agreement and is specifically identifiable to individual programs.

B.) Other Administrative Costs are allocated to individual programs based upon proportionate service expense.

Management's use of estimates - The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes - MMIC's application for its tax exempt status under Section 501(c)(3) of the Internal Revenue Code has been approved by the Internal Revenue Service.

#### 3. OTHER AMOUNTS -

There are no "other" amounts not detailed in Schedule A Disclosures.

#### 4. PLEDGES, ASSIGNMENTS AND GUARNTEES

MMIC has no pledges, assignments, or collateralized assets. There are also no guaranteed liabilities not disclosed on the balance sheet.

On a quarterly basis, provide justification regarding variances from approved NTXIX/XXI SMI spending plan. Include outcomes and indicate where efforts will be focused in order to align service expenses with targeted percentages.

## Variance Justification:

There was overspending in Case Management due to services being increased for the NT19 members. The clinics had designated CM's that were peer supports assigned to the NT19 population. It was identified that CM's did not have knowledge pertaining to resources available to the NT19 population in our service community. Targeted effors were made to increase service utilization to the NT19 population. We have requested that the PNO clinics ensure all NT19 members are seen within the identified LOC targets and report on a monthly basis to ensure NT19 members were having face to face contact. A change was made so that NT19 individuals were interspersed amongst the levels of care instead of the designated coordinators. The expansion areas and marketing surrounding those efforts, increased dialogue and service planning for NT19. A NT19 booklet was created in order to assist this population and case management staff to identify resources available.
